STATEMENT FROM [REDACTED]

I was assigned the 12:00 midnight to 8:00 a.m. shift on 7-12-73.

I got my assignment from the office and was assigned motor patrol from 12:00 midnight to 3:30 a.m., then interior building patrol.

I filled out my vehicle inspection card (top portion) at 12:10 a.m. and the vehicle was parked on the street off the west door. While making the vehicle inspection, I was approached by a man on a motor bike who had entered the compound at the Page gate, and he said he had observed from Page Boulevard that there was a fire.

I immediately got into the vehicle and drove to the southwest corner and observed flames shooting out of the window on the 6th floor. I put the vehicle in reverse and immediately backed from the southwest corner to the west entrance.

b7C

I ran inside and reported to the [REDACTED] [REDACTED] that there was a fire on the 6th floor.

I then ran to the west end passenger elevator and proceeded to the 6th floor. Upon elevator doors opening, the undersigned observed very heavy black smoke but no heat. I punched the 4th floor button without exiting. I then exited on the 4th floor and walked east down the hall to stairwell f and walked back up to the 5th floor using stairwell f. When I opened the stairwell door on the 5th floor the smoke was not too bad.

Then I went back up to the 6th floor. The same condition prevailed that was at the elevator door ---- heavy smoke but no heat. I then came back down the stairwell to the 5th floor and went out into the lobby. There was a small amount of smoke.

I walked into the west end office area off the lobby of the 5th floor and called the [REDACTED] and gave a report on the conditions. I told him that I would stay on the 5th floor and wait for the Fire Department.

They arrived and they assessed the situation and decided they needed some more equipment. While waiting for breathing equipment they secured a life line from the top of the stairs on 5 and four or five firemen went up stairwell f onto the 6th floor. They had obtained keys from the undersigned for the penthouse. They unlocked the penthouse door. Upon returning to the 5th floor they reported that there was intense heat in that area.

The undersigned remained on the 5th floor until about 3:00 a.m. when he was ordered by [redacted] to come to first floor Federal Protective Service office area.

b7C

At the time of my departure from the 5th floor, the Fire Department had not gotten any water into 6th floor from inside.

Just before departing 5th floor, I opened stairwell f entrance door from 5th floor and observed heavy smoke and small amount of heat.

When I departed 5th floor, several firemen were congregated in the snack bar area and seemed to be unoccupied and it appeared they were waiting.

District, 7-16-73

RE Military Personnel  
Records Center

ADDITIONAL INFORMATION:

Upon my arrival at the scene on July 12, 1973 at 0224 hours, I consulted with [redacted] of the Community Fire Protection District who was the officer in charge. [redacted] requested that I assist him in commanding the scene at the south and east ends of the building.

At approximately 0345 hours, I received reports that smoke was coming from the windows or the vents on the east side of the building. I walked around to the east end of the building to a point near the main east entrance to the building. Two guards were standing at this location talking to each other about two (2) young subjects that had entered the building through the east entrance around 2345 hours of July 11, 1973. The conversation I over heard indicated that these two young subjects were employees of the record center and that they were employed under the college program. One of the guards stated that they did not locate the subjects as though they may have searched for them. One guard stated that approximately one hour after these subjects entered the building, the guard on the sixth floor discovered the fire when he opened a door during the time he was making his rounds.

b7C

This information was not conveyed to anyone until the afternoon of July 13 when three (3) agents of the FBI were talking to me about their interviewing all of the guards. I mentioned this to them and they had not received any information from any of the guards they had interviewed. Respectfully submitted,

## INTERROGATION; ADVICE OF RIGHTS

### YOUR RIGHTS

Place J. Jones, Jr.  
Date 10-12-73  
Time 4:20

Before we ask you any questions, you must understand your rights.

You have the right to remain silent.

Anything you say can be used against you in court.

You have the right to talk to a lawyer for advice before we ask you any questions and to have him with you during questioning.

If you cannot afford a lawyer, one will be appointed for you before any questioning if you wish.

If you decide to answer questions now without a lawyer present, you will still have the right to stop answering at any time. You also have the right to stop answering at any time until you talk to a lawyer.

### WAIVER OF RIGHTS

I have read this statement of my rights and I understand what my rights are. I am willing to make a statement and answer questions. I do not want a lawyer at this time. I understand and know what I am doing. No promises or threats have been made to me and no pressure or coercion of any kind has been used against me.

If you doubt  
this is true about  
the fire, just try  
to get copies made  
from the original F.B.I.  
report - examine orig  
if you can

Subject - The most valuable  
piece of information  
you ever received.

Dear Sir

b7C

I have first hand information  
about the fire there at 9700  
(D.S.A.) Page Blvd. St Louis Mo 63133  
July 12, 1973, that destroyed  
millions of service men's  
records. I can show you a motion  
and the whole Ohio Bar Association  
Richard Nixon used this information  
to blackmail the A.B.A  
and keep out of jail, & now Carter  
is doing same, him & Bert. (our)

grignon said to [redacted] you tell that god damned son of a bitch of a sox he, to get his god damned ass down here and help, and he did. <sup>b7C</sup> become U.S. Attorney General, wants and all.

I can show you that Carter is keeping the lid on water gate by reducing [redacted] sentence, and attempt to change the privacy act, and prevent me from getting records that were removed, altered, or destroyed in the fire. The American Bar Association who is our dictator don't want us slaves to rebel and kick them out of control of our congress & election process. Also Carter is telling other countries about their human rights violations he don't want them to know about ours here in N.D., by the A.B.A.

Sophie and the whole Ohio Bar  
association railroaded [redacted]

into the fine State Hospital  
because he made out a title  
for a house he sold, and him  
not being a lawyer, and it  
backfired on them.

The scandal is still alive even  
with setting fire to G.S.C. Bldg.  
there and supposedly destroying  
my records. But I was railroaded  
into three nut houses  
after being mixed into the dry-  
der case. [redacted] a N.Y.

[redacted] may still be in a  
nut house, or murdered after  
he was mixed into the case.  
Also a [redacted] formerly at

the V.A. Hospital at Brecksville,  
Ohio may have been murdered.

Also [redacted] a [redacted]  
may have been murdered, and my  
brother [redacted] Sophie extorted \$6000.  
worth of stock from [redacted]  
the slot machine man, while he was  
Ohio at Ken 1957.

I have every detail & story, contact me.

Do it yourself but *NY Times* under 1973 E.M.-2  
to win cases or  
get confirmed for  
government jobs,  
or stay out of jail.

While William Bart Boxle  
was being groomed to  
be put in by Nixon as  
U.S. Attorney General,  
and keep him out of jail.  
I was in solitary in
